EXPERT SUPPORT FROM CONCEPT TO INSTALLATION & BEYOND

THE COMPLETE FTTX PACKAGE

Our partnership with CTTS is the perfect solution to your FTTX needs. Optimise the performance of your network with our expertise in developing innovative solutions and CTTS' experience in delivering all aspects of cabling and telecoms technology training.

YOUR FTTX NETWORK SOLUTION

Emtelle is a leading provider of blown fibre, ducting and cable solutions. Since the inception of blown fibre, we have earned a reputation for developing innovative FTTX solutions, whilst providing the highest customer service via knowledge sharing and support.

We identify solutions that meet both your current and your potential future needs. In partnering with CTTS we have extended our level of support with the introduction of bespoke training.

YOUR FTTX TRAINING SOLUTION

CTTS is Europe's largest independent provider of training in communications cabling and telecommunications technology and have been supplying bespoke training packages for major network operators for over 25 years.

Training packages cover all the latest fibre, ducting and cabling solutions worldwide, including Emtelle solution-specific training. Whether you are an operator or installation contractor we will design a fully bespoke package to meet your individual training needs:

Installation and network maintenance

Compliance with industry regulations

Refresher training for specific needs

Tailored for technical, sales or administration personnel

TRAINING TOPICS

EMTELLE SOLUTION-SPECIFIC TRAINING

Comprehensive training packages in all aspects of our own product solutions

-   **RTRYVA** Our retractable duct system for networks of any size
-   **QWKconnect & QWKlink** Our revolutionary pre-connectorised cabling system
-   **PowerProtect+** Our industry leading power and telecoms ducting solution
-  Plus many more Emtelle manufactured solutions; including the ability to assist in identifying the ideal solutions for your network.

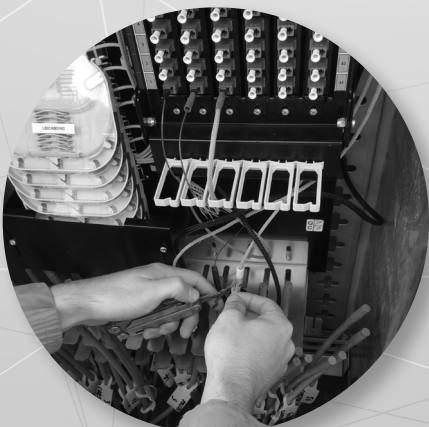

GENERAL FIBRE & CABLING TRAINING

-  Blown Fibre Network: Cabling, splicing & testing
-  Complex Fibre: Jointing & splicing
-  MDU Build
-  Overhead Cabling
-  Underground Rodding & Cabling
-  Survey Module
-  Microtrench Overview
-  PIA Training & Accreditation

INDUSTRY REQUIREMENTS TRAINING

-  Health & Safety
-  Confined Spaces Training
-  Road and Streetworks Act

THE TRAINING EXPERIENCE

All training packages are developed and delivered by experts.

Together we'll build a bespoke training package that meets your requirements:

-  While identifying the right FTTX solution for you we can incorporate a full training programme, or we can simply provide refresher training whenever you need it
-  We offer training for individuals, whole teams or a range of teams; tailoring content to meet the very different needs of technicians, field engineers, sales or administrative personnel
-  Training can be delivered at your own premises (learning on your own equipment), or at CCTS' National Training Centre based in Lincoln
