

## Product Line Manager – Fibre Cables

### Salary and Benefits:

- Competitive salary
- Home Office based
- 33 days annual holiday (when UK based)
- 40-hour week – Monday to Friday

### Our Company

Emtelle is a world class provider of infrastructure solutions covering the telecommunications and electricity industries. Our Hawick and Jedburgh factories, located in the Scottish Borders, are centres of expertise for duct and sub duct, optical cable, air blown fibre and other extruded polymer products.

Having dominated the blown fibre and ducted solution manufacturing space since its inception, Emtelle have pioneered some of the most innovative solutions within the industry as the company has advanced over the past four decades.

Our experience is unrivalled, proven by our continuous innovation and growth of our well-renowned solutions that continue to be deployed to networks globally.

With manufacturing facilities in Scotland, Denmark, Germany, U.A.E and now in the USA along with sales offices across the globe, Emtelle are present in all important FttX markets worldwide.

We are ambitiously growing and in support of that growth we now seeking a talented professional to fulfill this exciting new career opportunity.

As Product Line Manager for Fibre Cables within our business you will report to the Group Solutions Director and will be contributing within a highly dynamic team by managing the rapid growth of our fibre optic cable business throughout the Emtelle regions around the globe.

### The Role (Responsibilities):

You will be responsible for the product line management of our Fibre Cables range, (both current and future) within the Emtelle Group which will encompass the following.

- Datasheet Creation to regional requirements
- Managing products launches of new fibre cables
- Technical compliance to customer requirements
- Working with Emtelle Solutions team on New Cable developments
- Working with Industry partners within the Fibre Optic Industry
- Managing the day-to-day business of fibre cable supply to the different regional organisations within Emtelle
- Managing cable supply for Emtelle' s key customers
- Managing stock at manufacturing facilities and warehousing
- Managing the Commercial aspects of fibre cable manufacture and supply.

### Your Background

- Technical experience in the Fibre Optic Industry
- Hands on experience of fibre cables
- High knowledge of fibre optic cables and their installation methods
