

SUSTAINABLE DUCT SOLUTIONS

At Ementelle, we share your environmental concerns. Our **commitment to sustainability** is at the core of everything we do. We offer a diverse range of **uPVC ducts** and accessories that empower Power and Telecom Networks while minimising their environmental impact.

Join us in creating a greener, more connected future.
Together, Everything Connects

SUSTAINABLE DUCT SOLUTIONS

We offer a diverse range of uPVC ducts and accessories manufactured using 100% green energy. uPVC, with its remarkable longevity of over 100 years, can be recycled 8-10 times, further reducing its environmental impact. Join us in creating a greener, more connected future.

SUSTAINABLE

Designed to be easily recyclable at the end of its lifespan, promoting sustainability.

EFFICIENT CABLE PLACEMENT

Low coefficient of friction that facilitates smooth cable placement, making our customers' network setup hassle-free and efficient.

EFFORTLESS PRECISION

Very easy Jointing which simplifies our customers' installation process and saving them time and effort.

FREE FROM TOXINS

Free from harmful substances such as lead, tin, BPA, and Phthalates, ensuring your safety and peace of mind.

KEY FEATURES

- uPVC is an intrinsically low carbon plastic
- Finished product contains <40% oil-based material
- uPVC can incorporate recycled material
- Less Landfill - At the end of its life the product is also widely recycled
