

## **BUDI Connectorized with FIST**

### **Product Description**

BUDI is a product range of compact, wall mountable fibre closures for indoor and outdoor use. They are specifically designed for fast deployment and easy customer connection. The FIST management system is a proven CommScope technology for optimal fibre organisation and splicing. In combination with a patch panel, this system offers ultimate flexibility.

Available with splicing and/or patching capabilities, high connector density, small and larger footprints, the BUDI product range offers flexible solutions for a wide range of applications in the access network.

### **Benefits**

- Easy to Install.
- Compact and flexible design
- Fast customer connection
- Extensive product range
- Proven FIST fibre management system.

### **Features**

- Designed to operate in category C, category G and category A as characterised by IEC 61753-1
- Fire retardant, LSZH materials
- UV stable material for outdoor above ground use.
- Multiple cable ports available
- Bottom cable seal blocks are wraparound
- UMS available to mount single element/single circuit trays
- Compatible with pre-connectorized mini breakout cable.
- Allows integration of passive optical components
- Small and large footprints
